Indian River County– Florida Department of Health is recognizing Thursday, December 1st, as World AIDS Day. Florida Department of Health in Indian River County is co-hosting a local World AIDS Day event with the Indian River County HIV/AIDS Awareness Network in conjunction with Positive Mind & Body Support Group Network (PMBSGN) and People's Care on December 1st. The event will take place from 5:00pm to 7:00pm at Westminster Presbyterian Church, 2555 58th Avenue in Vero Beach.

At this event, we will be offering free HIV testing with rapid 15 minute test results, as well as free STD testing. Local speakers will be on hand to provide education on HIV/AIDS and answer questions about this topic. Participants will have the opportunity to get tested, learn about HIV/AIDS, visit community vendors and receive a door prize for attending.

John May, Florida Department of Health in Indian River County's HIV Outreach Coordinator, encourages everyone to come out and get tested. "World AIDS Day is an opportunity for people worldwide to unite in the fight against HIV, show their support for people living with HIV and to commemorate people who have died", said May.

Florida has the highest number of new HIV cases in the nation. Now is the time to get tested and know your status. For more information regarding HIV and STD testing, contact John May at his cell phone number 772-473-5268, office 772-794-7477, or john.may@flhealth.gov.

About the Florida Department of Health

The department, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.
